**Delivered Date:** 02/10/2009 05:24 PM EDT

**Subject:** Rev1 Schedule for "hybrid" cost est. at \$80m

ATTACHMENT: Set Up Activities Rev1.xls

Hi All - Dave noticed that I mixed up the cost for Nstar Crossing with the cost for Marsh Island Restoration. Attached is a revised spreadsheet.

Subject: RE: schedule for "hybrid" cost est. at \$80m

Attached is the "draft concept plan" KC mentioned in his e-mail earlier today. We can use this to discuss some conceptual questions for formulating the scenario, such as:

- 1) Does the sequence of activities make sense?
- 2) Do we want to limit ourselves to dollars or days? Some activities will have to be staffed with double-shifts in order to utilize the \$80M/year.
- 3) Once all TSCA material is dredged, what are our finishing steps? Final clean-up passes? Capping with sand? Should these activities be included?
- 4) Others?

When reviewing the attached spreadsheet, keep in mind that costs are rough and for scoping purposes only. The costs will be refined once the concept is formulated.

Anita

Dave,  
In talking to Anita, both milestones - the \$80m hybrid cost est by end of Feb  
and the 2 CAD Cell approach by end of March are doable. Anita will be  
sending out an email by COB today with a draft concept plan for getting the  
estimates completed that can be used for further discussions during  
tomorrow's conference call.

KC
